

## WHO IS L&J WASTE?

A company that began with an idea to help protect the environment—that started with a single truck, twelve containers, and a group of dedicated employees.

Today, we operate 7 trucks and 200 dumpsters, and the numbers keep growing. Our numbers are increasing and our employees are committed to our mission of safety and efficiency. But most of all, our employees share our desire to maintain a clean community.

## SAFETY MEETINGS

At L&J Waste we practice safety! To ensure that our workers are up-to-date on the practices of OSHA safety regulations for construction waste management, we hold meetings—one hour per week—so that everyone stays in tune with the standards for construction sites. Our knowledge helps eliminate fines.

## ENVIRONMENTALLY FRIENDLY HEADQUARTERS

Our new facility will be designed with a clean and friendly environment in mind. Our skylights allow us to conserve energy on sunny days, and our truck bays are heated by an efficient, wood-burning stove to reduce dependence on fossil fuel energy. We use recycled water, in addition to rain water to wash our trucks

## Our Goal

*Is to provide our customers with the professional services to meet both their LEED and Waste Removal needs.*

## COMPLIANT, CERTIFIED, CONVENIENT

- L&J WASTE is an LEED® compliant facility, capable of meeting each customers' requirements for certification.
- We are certified with both the Minority Business Enterprises of Baltimore and the Maryland Department of Transportation.
- We are conveniently located, with access to the I-95 Bypass on all-weather roads.
